

HILLA READY™ PLUS 1

*All features and capacities subject to minor changes as we go from prototype to production.

Bike Capacity	Weight Capacity*	Wheelbase	Tire Size
1	65 LBS	54"	16"-29"
			5" Max Width

* WEIGHT CAPACITY VARIES DEPENDING ON CONFIGURATION AND USE CASE. REFER TO WEIGHT CAPACITY SECTION OF BASE UNIT (SWING BASE OR ESSENTIALS BASE)

Features

TOOLESS	Quickly add 1 tray to either your Swing Base or Essentials Base without tools or hardware.
15 DEGREE EXTENSION	Don't worry about effecting ground clearance, as the extra tray is added at a 15 degree incline.
SMART PIVOT	The actuator handle is conveniently positioned at the user end for easy access. Whether installing, removing, or tilting up the unit, the handle is always right where you need it. Even with multiple Plus units installed, the handle remains fully accessible.
E-BIKE COMPATIBLE	With capacity up to 65lbs per tray and an optional ramp, move your E-bike with ease.
EZ BIKE LOADING	With a push of a button, the tire arm is free to open, so you can load your bike without having to set it down.
FAT TIRE COMPATIBLE	Carry bikes with up to 5" wide tires.
FRAME FREE CLAMP	Tire only arms, secure your bikes without damaging your frame.
ADJUSTABLE WHEEL CHOCKS	Adjustable chocks let you carry 16" kids bikes to 29ers and everything in between.
AJUSTABLE BIKE POSITION	Tire arms make it easy to load multiple bikes without bike to bike interference.
